off/store towed vehicles.

Jersey Barriers: if you require some or fencing from the bridge authority, again please let Joe or Sydney know and they can coordinate with the Bridge Authority...earlier today when Joe had spoken with them, they advised him to just let them know what is needed.

Hi Christine. FYI, I emailed Joanne Huls the Chief of Staff to the Governor thanking her for the offer of tow trucks. Her response was that they don't have any state resources that they are able to make available but they could put us on touch with private contractors.
